

Application No.: 10/717,887

IN THE SPECIFICATION:

Please amend page 1, lines 3 – 19 (following title) as follows, to move the reference to priority to the first paragraph:

Priority is claimed from the following Provisional Patent Application No. 60/492,439, "ENCAPSULATED ELECTRONIC POWER CONVERTER WITH EMBEDDED AC COMPONENTS," by Allen et al., filed August 4, 2003, which is also hereby incorporated by reference, in its entirety, for its teachings.

This invention relates generally to a power converter, and more particularly to an encapsulated, self-contained converter having alternating current (AC) input circuitry therein and directly connected to an AC line source, said converter being directly mountable and electrically connected to the direct current (DC) circuitry of the associated device and/or printed circuit board.

COPYRIGHT NOTICE

A portion of the disclosure of this patent document contains material which is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but otherwise reserves all copyright rights whatsoever.

CROSS-REFERENCE TO RELATED APPLICATION

Priority is claimed from the following provisional patent application, which is also hereby incorporated by reference, in its entirety, for its teachings:

"ENCAPSULATED ELECTRONIC POWER CONVERTER WITH EMBEDDED AC COMPONENTS," by Allen et al., filed August 4, 2003, Application No. 60/492,439.
